

The ESP Enigma:

The Scientific Case for Psychic Phenomena

Endorsements

“A quiet revolution is occurring within science, in which the origin, destiny, and essential nature of consciousness are being redefined. Dr. Diane Hennacy Powell is at the forefront of these developments. She realizes that psychic experiences must be fully engaged by science and not denied, if we are to understand what it means to be human. Written with brilliant clarity and insight, *The ESP Enigma* is a compelling, inspiring document.”

— **Larry Dossey, MD, author of *The Power of Premonitions and Healing Words***

“Eye-opening in its conclusions and exciting in its implications, *The ESP Enigma* will challenge your preconceived notions and expand your mind. In this extraordinary book, we find a renaissance in the understanding of consciousness, mind, and nature, and a whole new map of the continents of possibility that we had suspected but had rarely inhabited. Dr. Powell, a scientist of impeccable credentials, leads the reader into a new world that allows us to practice skills and capacities we never thought we had. Beautifully written, richly insightful, *The ESP Enigma* will surprise readers with joyous discoveries as they are educated into new ways of being.”

— **Jean Houston, Ph.D., author of *A Passion for the Possible***

“*The ESP Enigma* is an unflinching examination of the puzzle of consciousness—how it’s able to do things that, according to our textbooks, don’t make sense. Refreshingly clear, scientifically accurate, up to date, and comprehensive, this book shatters conventional beliefs about the nature of the mind and reality itself.”

—Dean Radin, Ph.D., Senior Scientist, Institute of Noetic Sciences, and author
of *The Conscious Universe and Entangled Minds*

“In this provocative book, Diane Powell has proposed a model of the Mobius Mind that draws from chaos theory, superstring theory, and various other sources to explain the ‘ESP Enigma’. The result is a tour de force that is more comprehensive and persuasive than anything I have read in years. I suspect it will become a classic piece of work.”

—Stanley Krippner, Ph.D., co-author, *Extraordinary Dreams and How to Work with Them*

“Finally, scientists and laymen alike have a clear and compelling introduction to the controversial world of contemporary psychic and consciousness research. Dr. Powell’s *The ESP Enigma* is destined to become a classic in the field.”

—Gary E. Schwartz, Ph.D., Director, Laboratory for Advances in Consciousness and Health at the University of Arizona, and author, *The Energy Healing Experiments*

“The ESP Enigma will help open people’s minds not only to accept what they can’t explain but also to learn about what is already known about ESP. If we spent more time and money exploring our inner world, we would better understand the mysteries of life.”

—Bernie Siegel, M.D., author of *Love, Medicine & Miracles* and *365 Prescriptions For The Soul*
